

EVO B2B has saved IndEx members over \$1,000,000 in credit card processing costs.

"We are often solicited by payment processors trying to gain our business, but only EVO B2B promised to come in and to reduce our costs without disrupting our daily workflow. We needed a solution that would integrate seamlessly with our current platform. EVO B2B delivered. We saw significant cost savings and did not have to change a thing. In fact, our team could not tell that any of the software changed. An added bonus of EVO B2B is the knowledge of their Client Services team. We had a number of cards downgrade, but Client Services was able to educate my team with a few guiding strategies, which reduced costs in certain card categories to under two percent. I am pleased with our choice to switch to EVO B2B."

- Larry Basden, CEO Hagar Restaurant Service, Inc.

"I wanted to switch to EVO B2B when they came on board with the IndEx Group. I'd heard from colleagues they would save us money and benefit the National Service Cooperative at the same time. They were right. Switching over was painless. EVO B2B integrates with our software just like our previous processor. I would recommend having them check your statement and see how much they can save you."

- Patrick Duffy, Duffy's AIS

"I am very pleased with EVO B2B. They have always jumped right on any situation to resolve it. I had to pay my previous credit card processor every time I called them for help. EVO B2B is great. So happy that IndEx found EVO B2B to help us. Don't change! Keep up the great service."

- Judy Miller, Metro Appliance Service

"EVO B2B is a great company. They don't just sign you up and you never hear from them again. They assist you in any way that you need. In addition to the great savings, EVO B2B offers safety with storing information and they have a great reporting system. The fact that they integrate nicely with the software that we use was an added bonus. I highly recommend EVO B2B for your merchant services."

- Lisa Rapanotti, General Manager, AR Repairs Baker's Kneads, Inc.

IndEx Endorsed Payment Processor
